Errata and Contingencies

Operating System	Failing Test	Expiry Date	ID Number	Type	Error Description
Windows 8 .1	Single Computer Display Object test	Expires on: 12/31/2013 21:15:16	884	filter	Issue Description: AllInOne desktop computers have the "Computer.AllInOne" form factor. For this form factor, the test should recognize the mouse and keyboard to be external to the main computer machine. Without this filter it expects the mouse/keyboard to be part of the computer which may not be the case. Issue Resolution: Recognize this form factor and remove the need to have mouse/keyboard as part of the computer.
Windows 8 .1	UAA Test (System, Manual)	Expires on: 12/31/2013 21:15:16	354	filter	Issue Description: The FIFO size for Input and Output Stream Descriptors should be read only. Issue Resolution: Filter Covers failure
